Other countries interested in joining the IMFN include: Argentina, Australia, China, India, Indonesia, Pakistan, Vietnam, and countries within the Southern African Development Community such as Malawi and South Africa.

Teaching Idea

Divide into groups to compare Canada's forests with those of other countries

[United States, Mexico, Brazil, Russia, Nigeria, Malaysia or others] using **Canada's Forests** as a model.

Ask the groups to present their findings to the class and compare information. Does this information support Canada's role as a world leader in sustainable forest management? Why or why not?

Where to look: atlases, Microsoft Encarta™ or similar encyclopaedia, library books, the country's website or Internet connection with a school in that country.
